GETTING STARTED

To access our online service you’ll firstly need to register. It won’t take very long, and how you do it depends on the type of plan you have with us.

The type of plan you have will determine the access levels you have. Some of the functionality in this document may not be available to you. To make updates you can contact us on 0345 60 50 401.

---

I HAVE A PERSONAL PENSION

To register, visit royallondon.com/onlineservice.

I’M A MEMBER OF A WORKPLACE PENSION

To register, visit your pension website. The link will appear on all the communications you get from us and your employer.
You’ll need to have your plan number to hand. You can find it in your **welcome pack** or in your most recent benefit statement.

You may have also received an access code from us. If you have, you can use this to get started, too.

1

**Plan details**

To help us find you, you’ll need to give us a few personal details. Once you’ve filled them in, click ‘**Continue**’.

2

**Create Account**

Give us your email address and create a password. You’ll also need to choose and answer three memorable security questions.

Once you’ve set your password and security questions, click ‘**Complete Registration**’.

We’ll send you an email to help you activate your account.
3 Confirmation
Follow the link in the email and you can log in using the password you’ve set.

4 Personal pension log in
To log in, visit royallondon.com/onlineservice.

Workplace pension log in
To log in, visit the pension website for your plan.

Important
Your email address will be your username.
This is the main screen you’ll use to navigate through online service. Once you’ve logged in, select ‘My Policy Details’, then click your name.

Important
Our online service refers to ‘your policy’. This just means the same as ‘your plan’.
Navigation

You can move around our online service using the links running down the left hand side of the screen. From here you can quickly explore:

- **Plan Documents**
  Get instant access to all your important paperwork, such as your Plan Details, Illustration and Key Features.

- **Plan Illustrations**
  See how much your retirement savings could be worth when you retire.

- **Change Details**
  Keep all your personal information up to date.

- **Change Investments**
  Make a switch to the default investment set for your plan, pick a different portfolio or create your own bespoke solution.

- **Plan Remuneration**
  Take a look at the charges being deducted from your plan, if any.

**Print a Plan Summary**

To put all your key plan information into one handy document, simply click ‘Print Plan Summary’.
Your plan information
From the main screen you can click on the purple tabs to get more information.

- **Personal**
  View personal information specific to your plan.

- **Contribution basis**
  Have a look at how contributions are paid into your plan by you and/or your employer.

- **Contributions paid**
  See the total contributions paid into your plan to date.

- **Transactions**
  Keep an eye on your investment fund transactions, including the amount and price per unit.

- **Investments**
  Check the investment strategy for your plan and your current total fund value. You can also see how your next contribution would be invested (if received on that day).

- **Values**
  Access your current fund value, transfer value and death claim value.

- **Tracking**
  Look through any changes or updates made to your plan.

**Hotlinks**
If you're thinking of changing your investments, you can access up-to-date fund and performance information on our website. Simply use our Hotlinks on the left hand side of the screen.
CHANGE YOUR RETIREMENT AGE

You can normally start taking your retirement benefits any time after age 55. Here you can find out how to change your retirement age.

1. **My Policy Details**
   To change your retirement age, select ‘My Policy Details’ in the left hand navigation menu. Then click your name.

2. **Change Details**
   Select ‘Change Details’ in the left hand navigation menu. Then select ‘Key a New Change’. Then click ‘Continue’ and ‘I accept’.
**Retirement age**

Enter your chosen retirement age and click ‘Confirm’.

**Other things to note**

- When you change your retirement date, any investment information you get from us will refer to your new retirement age for rebalancing.
- Your personal illustrations and benefit statements will also reflect your new retirement age.

---

**What does Rebalancing mean?**

When you hold a portfolio of assets, the asset mix will likely change because of the difference in performance of assets. Rebalancing is where the asset mix is brought back in line with the original mix, managing the level of risk chosen. If you’re in a Governed Portfolio you can take a hands-free approach as this all happens automatically.

**Important**

If you’re within 12 months of retiring, you can’t change your retirement age through online service.
If you’d like an idea of what you could get at retirement, you can create an illustration.

1. **Plan Illustrations Menu**
   From the link on the left hand side of the navigation screen select ‘Plan Illustrations’. Choose to run your illustration to your selected retirement date or a revised retirement date.
   
   You can also review existing and past illustrations from this page.

2. **Choose how to run your illustration**
   You can pick the type of annuity you might choose to buy at retirement. To get more information through ‘help text’, hover over each option and left click the question mark that appears.

3. **Your plan illustration**
   Once your chosen illustration has been run, you can save or print it. It’s also stored in the system.
INVESTING YOUR RETIREMENT SAVINGS

You need to make sure your investment choices continue to meet your needs. If you decide to make a change, simply follow these four easy steps.

1. My Policy Details
   Select 'My Policy Details' in the left hand navigation menu. Then select your name.

2. Change Details
   Select 'Change Investments' in the left hand navigation menu. Then 'I accept'. Then select 'Change Investment Choice' and click 'Continue'.
3  
**Change your investment choice**  
Underneath the summary of your current investments, you’ll be asked to choose what you want to change your investment choice to. Open the drop down box and make your selection from the options available.

4  
**Confirmation**  
Carefully enter your new investment selection and continue until the confirmation page is displayed.

Check the box to confirm that you’ve read and understood the factsheets for your selected investment choice and click ‘Confirm’.
Can’t change your investment choice?
If you see a message telling you that it’s not been possible to change your investment choice, a regular rebalancing switch is taking place on your plan. This is nothing to worry about and is part of our normal process, but you’ll need to wait up to two days until it completes before you can make your change.

What does Rebalancing mean?
When you hold a portfolio of assets, the asset mix will likely change because of the difference in performance of assets. Rebalancing is where the asset mix is brought back in line with the original mix, managing the level of risk chosen. If you’re in a Governed Portfolio you can take a hands-free approach as this all happens automatically.
We've all got lots of passwords to remember — so if you forget yours, don't worry. You can change or reset it quickly and easily.

**Changing your password**

As with all secure online services, it's important that you don't disclose your username or password to anyone else. If you think someone knows your password you should change it immediately.

Select 'My Security Page' from the left hand menu on the navigation page.

Then click on the 'Change' link.

---

**Important**

Once you've changed or reset your password, it's important that the email address we hold for you is kept up-to-date.
1

Forgotten your password?
On the log in page try selecting ‘Forgotten password’ for a handy hint, which will be one of the memorable security questions you set when you registered.

2

Forgotten your password and hints?
Select ‘Request password reset’ from the log in page.
3

**Reset password email**

We’ll send you an email to change your password. Simply click the link ‘Reset password’.

---

4

**Reset password**

Follow the instructions to choose a new password and hint. You’ll also be asked one of your security questions. Then click ‘Continue’.

Your password will now be reset, and you can log into our online service.
We hope that you find our online service simple and easy to use, but should you need it, further support is available.

Click on ‘Help’ on the top right-hand side of our online service screen to find out more.

You’ll also find more handy information through our ‘help text’. If you hover over a field and see a question mark appear, just left click and we’ll explain things in more detail.

If you prefer, you can contact our web support team:

Email: websupport@royallondon.com

Phone: 0345 60 50 401
8am-6pm, Monday to Thursday
and 8am-5pm, Friday.
