

## Fund range summary

This leaflet details the investment funds available through a Royal London Pension. It is important to remember that the value of investments can go down as well as up, and you may get back less than you originally invested. For more information about the funds, please visit our website at <https://www.royallondon.com/pensions/investment-options/>. The fund information is correct as at September 2024.

1 These charges (which exclude Investment Expenses) are added to the annual management charge for your plan.

2 The expenses shown are the typical costs incurred by the investment management company, which are deducted from the value of the fund. The level of these expenses is not in Royal London's control and may vary from year to year.

3 The Total Expense Ratio includes the fund's annual management charge plus any audit, custodian, registration or compliance fees paid out of the fund's assets. It does not include the costs of buying and selling securities, which would still be paid if investing directly in securities instead of through an investment fund.

## Matrix Funds

The funds that have been highlighted with a ■ against them are Matrix funds. Each Matrix Fund has a defined Management Risk Category and Equity Sector. The selection process for the external matrix funds involves input from an independent company – Morningstar Investment Management. There is also a governance process in place to ensure that the matrix funds continue to behave as you first expected. The governance process is run by the Investment Advisory Committee (IAC).

For further information on the Matrix funds please refer to our Matrix Consumer Guide.
