

Investments factsheet

Investment pathway 3

Risk Grading: Balanced

What are investment pathways?

Investment pathways are investment solutions, designed for customers entering drawdown. There are four pathways available, if you want to find out more about the other pathways, visit our website royallondon.com/investmentpathways.

What is investment pathway 3?

Pathway 3 is designed to deliver growth above inflation to support sustainable income withdrawal.

What governance process is in place?

The pathway comes with ongoing governance. This simply means that our investment experts check it regularly. It allows us to maintain the best mix of assets in line with the objectives of the pathway.

If our experts decide that the mix of assets needs to be adjusted, this happens automatically on your behalf, so you don't need to do anything. And, this service comes at no extra cost.

For full details of our governance process please visit our website at royallondon.com/pensioninvestments.

Who is this pathway designed for?

It's designed for someone who plans to start taking money as a long-term income within the next five years and has a balanced attitude to risk.

If you're not sure about the suitability of an investment, you should seek professional financial advice.

Advisers may charge for providing such advice and should confirm any costs beforehand.

It's important to remember that the value of investments can fall as well as rise and you could get back less than you put in.

Where is the pathway invested?

The fund mix of the pathway as at 20th June 2024 is shown below:

Investment pathway 3	
RLP Sterling Extra Yield Bond	5.00%
RLP UK Corporate Bond	10.10%

If you want to know more about any of the funds within this pathway, including details of fund charges and performance, visit our website royallondon.com/pensioninvestments and take a look at the relevant factsheet.

What is the pathway benchmark?

The benchmark is a target against which performance is measured.

This benchmark is regularly reviewed and may be updated by Royal London so that it remains appropriate for the investor profile as detailed in the section "**Who is this pathway designed for?**" or where a component index is discontinued or replaced.

The benchmark for this pathway is a composite of indices:

FTSE World Index	19.50%
FTSE All Share Index	7.50%
MSCI Emerging Markets ESG Index	3.00%
ABI UK - UK Direct Property	7.50%
Bloomberg Commodity Index	5.00%
Markit iBoxx Sterling Non Gilts BBB Index	5.00%
BofA Merrill Lynch Global HY Constrained GBP Hedged Index	5.00%
Markit iBoxx Sterling Non-Gilt Index	10.00%
Bloomberg Global Aggregate GBP Hedged Index	3.25%

30% Bloomberg UK Government Inflation Linked Bond 1-10 year Index /70% Bloomberg World Government Inflation Linked Bond (ex UK) 1-10 year Index	2.50%
FTSE Actuaries UK Conventional Gilts (All Stocks) Index	9.75%
JP Morgan Global GBI Hedged Index	2.50%
FTSE Actuaries UK Conventional Gilts up to 5 Years Index	1.50%
Sterling Overnight Index Average (SONIA)	10.00%

Changes to the pathway

The following table documents the last three changes that Royal London have made to this pathway.

Date of Change	Overview of change
20/06/2024	Investment pathway 3 Global equities have continued to rebound over recent weeks, moving to fresh highs despite increased political risk in Europe. We have increased our allocation to stocks, moving further overweight as positive earnings continue to drive markets higher. Elsewhere, we maintain a neutral allocation to commodities; supply remains tight however signs of waning demand are a headwind against the asset class. We also maintain an underweight position to government bonds.
06/06/2024	Investment pathway 3 Equity markets have recovered a long way from their April lows. Having increased our overweight position in stocks as investor sentiment moved to overly depressed levels during the April dip, we have since reduced the size of this position, taking profits as markets have recovered and our measure of investor sentiment back to neutral levels. We have also reduced our allocation to commodities, moving to a neutral position in the asset class as an increase in supply and waning demand has put the asset class under pressure. Elsewhere we remain underweight bonds and property.
09/05/2024	Investment pathway 3 With growth data relatively resilient and inflation data remaining stronger than expected, markets have moved to fear that interest rates may stay higher for longer than previously expected. We have moved to a modest overweight position in commodities, which tend to outperform in this macro environment. We remain overweight equities but have taken profits and reduced the size of this position as the macro tailwinds supporting the asset class continue to fade. Elsewhere we remain underweight bonds and property.
