

Investments factsheet

# Investment pathway 2

Risk Grading: Cautious

## What are investment pathways?

Investment pathways are investment solutions, designed for customers entering drawdown. There are four pathways available, if you want to find out more about the other pathways, visit our website [royallondon.com/investmentpathways](https://royallondon.com/investmentpathways).

## What is investment pathway 2?

Pathway 2 is designed to maintain annuity buying power for customers looking to buy an annuity in the short-term.

## What governance process is in place?

The pathway comes with ongoing governance. This simply means that our investment experts check it regularly. It allows us to maintain the best mix of assets in line with the objectives of the pathway.

If our experts decide that the mix of assets needs to be adjusted, they'll do this automatically on your behalf, so you don't need to do anything. And, this service comes at no extra cost.

For full details of our governance process please visit our website at [royallondon.com/pensioninvestments](https://royallondon.com/pensioninvestments).

## Who is this pathway designed for?

It's designed for someone who plans to set up a guaranteed income (annuity) within the next five years and has a cautious attitude to risk.

If you're not sure about the suitability of an investment, you should seek professional financial advice.

Advisers may charge for providing such advice and should confirm any costs beforehand.

It's important to remember that the value of investments can fall as well as rise and you could get back less than you put in.
