

# PENSION FUND PERFORMANCE

March 2019

[royallondon.com](http://royallondon.com)

Past performance is not a guide to the future. **Prices can fall as well as rise meaning you may not get back the value of your original investment.** Investment returns may fluctuate and are not guaranteed.

DEPOSIT

**IMPORTANT NOTES**

Source: Lipper, bid to bid, as at 28.02.2019, Royal London, as at 28.02.2019. **All performance figures, including the figures shown for the growth in the benchmarks, have been calculated net of the Fund Management Charge.** The Compound Annual Growth Rate (C.A.G.R.) is a measure of the investment returns, on a given fund, over the specified period. It allows for the impact of compounding of investment returns, which is particularly important where returns vary from one year to the next. Past performance is not a guide to the future. Prices can fall as well as rise meaning you may not get back the value of your original investment. Investment returns may fluctuate and are not guaranteed.

FTSE International Limited ("FTSE") © FTSE 2019. "FTSE®" is a trade mark of the London Stock Exchange Group companies and is used by FTSE International Limited under licence. All rights in the FTSE indices and/or FTSE ratings vest in FTSE and/or its licensors. Neither FTSE nor its licensors accept any liability for any errors or omissions in the FTSE indices and/or FTSE ratings or underlying data. No further distribution of FTSE Data is permitted without FTSE's express written consent.

- ① Total Expense Ratio (TER), covering calendar year 2017. The TER is a measure of the overall cost of a fund to the investor. It includes the Fund Management Charge plus any audit, custodian, registration or compliance fees paid out of the fund's assets. It does not include the costs of buying and selling securities, which would still be paid if investing directly in securities instead of through an investment fund. TERs are reviewed regularly and may be subject to change.
- ② Tracker funds, also known as passive funds, aim to perform in line with a market index such as the FTSE All Share index. They do this by investing in either all (full replication) or a representation (partial replication) of the index constituents. Tracker funds tend to be low cost as this replication is generally done automatically and does not require the same level of research as active management.

Actively managed funds aim to outperform the market index by employing fund managers and research teams to make tactical decisions on which stocks or sectors to invest in. They tend to have higher charges than tracker funds in line with the extra resource required to run these funds. It should be remembered that a higher charge does not guarantee better returns.

- ③ The Fund Volatility figure shown is the annualised standard deviation of the monthly returns on the fund over a three-year time period to 28.02.2019. Standard deviation is a measure of the spread of monthly returns around the average (mean) return. A higher volatility figure indicates that the fund has produced a wider range of returns over the three-year period while a fund with a lower volatility figure has been more stable.

- ④ The performances of the indicated benchmarks have been calculated using prices for the last pricing date previous to that shown (i.e. to compare our fund price movements for the period to 28.02.2019 we have used benchmark prices to 27.02.2019). This calculation allows a more accurate comparison between the fund and its benchmark, due to a one-day delay in the pricing of the external funds in question.
- ⑤ As part of our ongoing review process a change of underlying investment occurred for this fund.
- ⑥ The performances of the indicated benchmarks have been calculated using prices for the last pricing date two days prior to that shown (i.e. to compare our fund price movements for the period to 28.02.2019 we have used benchmark prices to 26.02.2019). This calculation allows a more accurate comparison between the fund and its benchmark, due to a two-day delay in the pricing of the external funds in question.
- ⑦ Please note this fund was closed to new investors and incremental investments on 07.09.2013.
