

INVESTMENT MIX AND INVESTMENT RETURNS FOR WITH PROFITS POLICIES

This leaflet shows the 2017-2021 investment mix and the 2017 - June 2022 investment returns for with profits policies in the following sub-funds of the Royal London Long Term Fund:

- **RL open fund (including Police Mutual with effect from 1st October 2020)**
- **Former UFOB sub-fund**
- **Former UFIB sub-fund**
- **Former RAIB sub-fund.**

Note that during 2021, these sub-funds were merged into the RL open fund: the RAIB sub-fund on 30th June 2021 and the UFOB and UFIB sub-funds on 31st December 2021.

This document does not apply to the following types of policies:

- Regular premium pension policies taken out with Refuge Assurance before 1 October 1992.
- Any part of a Refuge Assurance pension policy that was paid by a single premium.
- Regular premium pension policies taken out with United Friendly and made 'paid up' before 1 January 2010. If your policy has been 'paid up', it means that you can't pay any more contributions into it.

Since January 2010 these policies have been invested entirely in government bonds, other bonds and cash. This is because the policy guarantees are so far above the policy values, these policies effectively behave more like non profit policies.

This document also does not cover Royal London Funeral Investment Plans. Information on the investment mix and returns of these policies is sent separately to funeral providers.

You can find out which sub-fund your policy is invested in by looking at the 'Your with profits policy' leaflet that we sent you with your last yearly statement. You cannot switch from one sub-fund to another.
