

# GOVERNED RANGE ADVENTUROUS ACTIVE LIFESTYLE STRATEGY FACTSHEET

#### What is a Lifestyle Strategy?

As you approach your retirement date, you'll probably want to reduce your investment risk. This Lifestyle Strategy is designed to help you do that. Your investments are gradually switched from higher to lower risk portfolios as you get closer to retirement.

The Lifestyle Strategy is not compulsory. You can start or stop it at any time, but it must apply to all contributions to your plan.

#### What governance process is in place?

Your Lifestyle Strategy comes with ongoing governance. This simply means that our investment experts check it regularly. It allows us to maintain the best mix of assets in line with the risk category and to make sure it is performing in line with its overall objectives - aiming to give you the best returns. The value of your investment can go down as well as up and you may not get back the value of the original investment.

If our experts decide that the mix of assets needs to be adjusted, it happens automatically on your behalf, you don't need to do anything. What's more, this service comes at no extra cost.

For full details of our governance process please visit our website at

royallondon.com/pensioninvestments.

#### Who is this strategy designed for?

It has been designed for investors with an adventurous attitude to risk. If you're not sure what your risk attitude is you can complete our online Risk Attitude Profiling Questionnaire at **royallondon.com/pensioninvestments** to give you an idea of your attitude to risk.

If you are in any doubt about the suitability of any particular type of investment, you should seek professional financial advice. Advisers may charge for providing such advice and should confirm any costs beforehand.

#### What is the investment objective?

This strategy aims to deliver above inflation growth in the value of the fund at retirement, whilst taking a level of risk consistent with an adventurous risk attitude.

#### Where is the strategy invested?

The strategy is invested in the Governed Portfolios shown. The mix of assets in each Governed Portfolio may change at any time in the future if our investment experts decide that a different blend of assets is more appropriate. It's an automatic process and there's no charge for it.

Please note that RLS Global Blend Core Plus (RLS Global Growth) has an additional charge.

You will be automatically invested into the strategy at the point that matches your time to retirement.

As you approach retirement your money is automatically switched to ensure a gradual move between the portfolios and fund splits shown below. The switching occurs on a monthly basis.

Fund splits as at 4th December 2025 are shown in the following table:

#### **Details of changes to the strategy**

The following table documents the last 3 changes that Royal London have made to the portfolios within this strategy.

Effective Date of Change	Overview of Changes
04/12/2025	Governed Portfolio Enhanced Global equities returned to their highs over recent weeks, rebounding from the recent sell-off driven by concerns over an AI bubble. Market sentiment has been much improved, as dovish comments from Fed officials and some weaker economic data reports seemed to reinforce the idea of a December rate cut in the US. We remain overweight equities as the macro backdrop remains supportive and company earnings continue to deliver. Elsewhere, we are overweight commodities, and neutral on bonds, as we continue to monitor developments ahead of the FOMC meeting.

Effective Date of Change	Overview of Changes
20/11/2025	Governed Portfolio Enhanced Global stocks have delivered mixed returns over recent weeks with broad indices advancing, whilst growth sectors have continued to remain under pressure due to questions around the sustainability of AI earnings. We are taking profits on the asset class at the margin but remain overweight given the macro backdrop remains supportive and company earnings continue to deliver. Elsewhere, we are adding to commodities on continued strength, whilst we continue to remain neutral on bonds and will continue to monitor developments heading into the UK budget and FOMC meeting.

Effective Date of Change	Overview of Changes
06/11/2025	Governed Portfolio Enhanced Equity markets continue to rally, driven primarily by the outperformance of mega_cap technology companies following a strong earning season and positive trade announcements between the US and its key trading partners. We are adding to equities at the margin and continue to remain overweight given the macro-economic backdrop. In fixed income, with both macro data and fiscal news driving bond markets, we remain neutral on the asset class and will continue to monitor developments heading into the budget this month. Elsewhere, we remain neutral on commodities.
