

GOVERNED RANGE BALANCED LIFESTYLE STRATEGY (ANNUITY) FACTSHEET

What is a Lifestyle Strategy?

As you approach your retirement date, you'll probably want to reduce your investment risk. This Lifestyle Strategy is designed to help you do that. Your investments are gradually switched from higher to lower risk portfolios as you get closer to retirement.

The Lifestyle Strategy is not compulsory. You can start or stop it at any time, but it must apply to all contributions to your plan.

What governance process is in place?

Your Lifestyle Strategy comes with ongoing governance. This simply means that our investment experts check it regularly. It allows us to maintain the best mix of assets in line with the risk category and to make sure it is performing in line with its overall objectives - aiming to give you the best returns. The value of your investment can go down as well as up and you may not get back the value of the original investment.

If our experts decide that the mix of assets needs to be adjusted, it happens automatically on your behalf, you don't need to do anything. What's more, this service comes at no extra cost.

For full details of our governance process please visit our website at

Who is this strategy designed for?

It has been designed for investors with a balanced attitude to risk. If you're not sure what your risk attitude is you can complete our online Risk Attitude Profiling Questionnaire at

royallondon.com/pensioninvestments to give you an idea of your attitude to risk.

If you are in any doubt about the suitability of any particular type of investment, you should seek professional financial advice. Advisers may charge for providing such advice and should confirm any costs beforehand.

What is the investment objective?

This strategy aims to deliver above inflation growth in the value of the fund and income at retirement, assuming 25% is taken in cash and 75% is used to purchase an annuity. The strategy aims to invest with a level of risk consistent with a balanced risk attitude.

Where is the strategy invested?

The strategy is invested in the Governed Portfolios shown. The mix of assets in each Governed Portfolio may change at any time in the future if our investment experts decide that a different blend of assets is more appropriate. It's an automatic process and there's no charge for it.

You will be automatically invested into the strategy at the point that matches your time to retirement.

As you approach retirement your money is automatically switched to ensure a gradual move between the portfolios and fund splits shown below. The switching occurs on a monthly basis. Fund splits as at 6th November 2025 are shown in the following table:

Details of changes to the strategy

The following table documents the last 3 changes that Royal London have made to the portfolios within this strategy.

| Effective Date of Change | Overview of Changes |
|--------------------------------|--|
| 06/11/2025 | Governed Portfolio Dynamic Equities have rallied back towards all-time highs, shaking off recent US-China trade worries which saw the S & P 500 endure its sharpest one day pull-back since April. We have taken some on the asset class at the margin but remain overweight given the macro backdrop remains supportive, and company earnings continue to deliver. Elsewhere, we continue to remain neutral on commodities. |
| 06/11/2025 | Governed Portfolio Growth Equities have rallied back towards all-time highs, shaking off recent US-China trade worries which saw the S & P 500 endure its sharpest one day pull-back since April. We have taken profits on the asset class at the margin but remain overweight given the macro backdrop remains supportive and company earnings continue to deliver. Elsewhere, we have added to bonds, moving neutral on the asset class. Global bond yields have fallen over recent weeks, with pressure on the long end of the curve easing as fiscal worries have subsided. We have also reduced our overweight in commodities, moving to neutral. |

| 09/10/2025 | Governed Portfolio Dynamic Politics have moved into focus for investors, as we have seen the beginning of a US government shutdown, Japanese elections and the resignation of the new French Prime Minister. Despite this, investor sentiment has remained bullish and global equities have continued to rise. With a supportive technical backdrop and resilient macro data we are increasing our overweight to the asset class. |
