

## **GOVERNED RANGE BALANCED LIFESTYLE STRATEGY (DRAWDOWN) FACTSHEET**

### **What is a Lifestyle Strategy?**

As you approach your retirement date, you'll probably want to reduce your investment risk. This Lifestyle Strategy is designed to help you do that. Your investments are gradually switched from higher to lower risk portfolios as you get closer to retirement.

The Lifestyle Strategy is not compulsory. You can start or stop it at any time, but it must apply to all contributions to your plan.

### **What governance process is in place?**

Your Lifestyle Strategy comes with ongoing governance. This simply means that our investment experts check it regularly. It allows us to maintain the best mix of assets in line with the risk category - and to make sure it is performing in line with its overall objectives - aiming to give you the best returns. The value of your investment can go down as well as up and you may not get back the value of the original investment.

If our experts decide that the mix of assets needs to be adjusted, it happens automatically on your behalf, you don't need to do anything. What's more, this service comes at no extra cost.

For full details of our governance process please visit our website at [royallondon.com/pensioninvestments](https://royallondon.com/pensioninvestments).

### **Who is this strategy designed for?**

It has been designed for investors who want to use their fund to support a flexible income at retirement (known as drawdown) and have a balanced attitude to risk. If you're not sure what your risk attitude is you can complete our online Risk Attitude Profiling Questionnaire at [royallondon.com/pensioninvestments](https://royallondon.com/pensioninvestments) to give you an idea of your attitude to risk.

If you are in any doubt about the suitability of any particular type of investment, you should seek professional financial advice. Advisers may charge for providing such advice and should confirm any costs beforehand.

### **What is the investment objective?**

This strategy aims to deliver above inflation growth in the value of the fund at retirement. It has been designed to support regular income withdrawals when you retire, whilst taking a level of risk consistent with a balanced risk attitude.

### **Where is the strategy invested?**

The strategy is invested in the portfolios shown. The mix of assets in each portfolio may change at any time in the future if our investment experts decide that a different blend of assets is more appropriate. It's an automatic process and there's no charge for it.

You will be automatically invested into the strategy at the point that matches your time to retirement.

As you approach retirement your money is automatically switched to ensure a gradual move between the portfolios and fund splits shown below. The switching occurs on a monthly basis.

Fund splits as at 23rd April 2026 are shown in the following table:

<b>Balanced Lifestyle Strategy (Drawdown)</b>	
Investment information 15 Years or more from retirement:	
<b>Governed Portfolio Dynamic</b>	
RLP Property	8.67%

### **Details of changes to the strategy**

The following table documents the last 3 changes that Royal London have made to the portfolios within this strategy.

<b>Effective Date of Change</b>	<b>Overview of Changes</b>
23/04/2026	<b>Governed Portfolio Dynamic</b> Global markets staged a sharp relief rally as the announcement of a two-week US-Iran ceasefire materially reduced immediate escalation risks. Equities surged globally, with the S & P 500 posting its longest winning run since October. We are adding marginally to our equity exposure, as investor attention has slowly begun to shift towards corporate earnings season, and company fundamentals remain strong. Elsewhere we are adding to commodities at the margin on strong momentum grounds, given vessel crossing through the Strait of Hormuz remains heavily constrained.
23/04/2026	<b>Governed Portfolio Growth</b> Global markets staged a sharp relief rally as the announcement of a two-week US-Iran ceasefire materially reduced immediate escalation risks. Effective Date of Change	Overview of Changes
23/04/2026	<b>Governed Portfolio Conservative</b> Global markets staged a sharp relief rally as the announcement of a two-week US-Iran ceasefire materially reduced immediate escalation risks. Equities surged globally, with the S & P 500 posting its longest winning run since October. We are adding marginally to our equity exposure, as investor attention has slowly begun to shift towards corporate earnings season, and company fundamentals remain strong. Elsewhere we are adding to commodities at the margin on strong momentum grounds, given vessel crossing through the Strait of Hormuz remains heavily constrained.
23/04/2026	<b>Governed Retirement Income Portfolio 3</b> Global markets staged a sharp relief rally as the announcement of a two-week US-Iran ceasefire materially reduced immediate escalation risks. Equities surged globally, with the S & P 500 posting its longest winning run since October. We are adding marginally to our equity exposure, as investor attention has slowly begun to shift towards corporate earnings season, and company fundamentals remain strong. Elsewhere we are adding to commodities at the margin on strong momentum grounds, given vessel crossing through the Strait of Hormuz remains heavily constrained.
09/04/2026	<b>Governed Portfolio Dynamic</b> Global markets continue to be dominated by the war in Iran, as volatility has remained elevated throughout the last few weeks. Attention has now turned to the US-Iran ceasefire deal with markets optimistic for a resolution but still pricing in meaningful tail risk. We are adding marginally to our equity exposure, as investor sentiment remains oversold. Elsewhere we are reducing our overweight position in commodities, taking profits at these elevated levels.

Effective Date of Change	Overview of Changes
09/04/2026	<b>Governed Portfolio Growth</b> Global markets continue to be dominated by the war in Iran, as volatility has remained elevated throughout the last few weeks. Attention has now turned to the US-Iran ceasefire deal with markets optimistic for a resolution but still pricing in meaningful tail risk. We are adding marginally to our equity exposure, as investor sentiment remains oversold. We are also adding back to bonds having benefited from an underweight position in recent weeks, given fears over sustained inflationary pressure. Elsewhere we are reducing our overweight position in commodities, taking profits at these elevated levels.

19/03/2026	<p><b>Governed Portfolio Dynamic</b></p> <p>Tensions remain high in the Middle East and the uncertainty around the outcomes of the war in Iran continues to significantly impact financial markets. Volatility has risen across all asset classes, with global equity markets continuing to fall. Commodity prices have been particularly strong, and we have benefited from an overweight position in the asset class. We are continuing to reduce equity exposure, noting this extremely elevated level of geopolitical risk and escalating inflation concerns.</p>
