What governance process is in place?

Your portfolio comes with ongoing governance. This simply means that our investment experts check it regularly. It allows us to maintain the best mix of assets in line with the risk category - and to make sure it is performing in line with its overall objectives - aiming to give you the best returns. The value of your investment can go down as well as up and you may not get back the value of the original investment.

If our experts decide that the mix of assets needs to be adjusted, it happens automatically on your behalf, you don't need to do anything. What's more, this service comes at no extra cost.

With a supportive technical backdrop and resilient macro data we are increasing our overweight to the asset class. Elsewhere we are marginally adding to commodities and deepening our bond underweight.
